

REMARKS

Applicants submit herewith amendments to the paragraph citing reference to related applications. A claim for priority under the provisions of 35 U.S.C. §119 for the above-identified U.S. patent application based upon UK Patent Application Nos. 01 21459.2, 02 25245.0, and 03 06290.8, was made in the Utility Patent Application Transmittal dated October 28, 2003 and in the Submission of Priority Documents dated March 30, 2004. The filing receipts dated March 5, 2004 and May 26, 2004 list the three above-cited applications, thereby acknowledging the foreign priority claim to all three British applications, UK Patent Application Nos. 01 21459.2, 02 25245.0 and 03 06290.8.

However, the originally-filed specification did not cite a reference to UK Patent Nos. 02 25245.0 and 03 06290.8. Therefore, Applicants submit herewith a correction to paragraph 0001 to correct the inadvertent omission. Applicants further submit that there is no new matter added as a consequence of the amendment to the specification.

Applicants believe no fee is required. However, in the event a fee is required the Commissioner is hereby authorized to charge payment of any fee associated with this communication to Deposit Account No. 02-4377.

Respectfully submitted,

By:
